### GUIDELINES FOR DRAFTING COUNTRY REPORTS 37
Introduction:

The Sex Worker Implementation Tool, more commonly known as the SWIT [publication title: Implementing Comprehensive HIV/STI Programmes with Sex Workers: Practical Approaches from Collaborative Interventions] provides practical guidelines on how to implement rights-based programming. The SWIT was developed in collaboration with sex worker-led organisations and networks and was published in December 2013 by the World Health Organization (WHO), the United Nations Population Fund (UNFPA), the Joint United Nations Programme on HIV/AIDS (UNAIDS), the Global Network of Sex Work Projects (NSWP), The World Bank and the United Nations Development Programme (UNDP). NSWP published The Smart Sex Worker’s Guide to the SWIT in 2015, which provides a short summary of its key messages.

LINKAGES/UNDP contracted NSWP to develop and pilot a community-led evaluation framework of the rollout of the SWIT and a framework for assessing meaningful involvement of sex workers in policy and programming forums and decision-making. This framework was developed in collaboration with sex workers nominated by the African Sex Workers Alliance (ASWA); Asia Pacific Network of Sex Workers (APNSW); Sex Worker Rights Advocacy Network for Central-Eastern Europe and Central Asia (SWAN); Plataforma LatinoAmerica de Personas que EjeRcen el Trabajo Sexual (PLAPERTS); Caribbean Sex Workers Coalition (CSWC); colleagues from the LINKAGES and Bridging the Gaps programmes, The Global Fund, UNFPA, UNDP, WHO and UNAIDS at a Global Experts Meeting in September 2017 in Ukraine.

This framework is intended to be used by sex worker-led organisations to monitor the adoption and roll out of the SWIT and meaningful involvement of sex workers in their country. It will highlight gaps and provide information to support sex worker-led organisations advocacy for the implementation of comprehensive rights-based services in their country.

By roll out, this framework does not intend to monitor the implementation of the SWIT but gives an opportunity to gather information on the level of awareness and knowledge that the different stakeholders have of the SWIT at the time when the interviews with stakeholders took place.

The evaluation framework developed includes interviewing representatives from five categories of stakeholders identified during the Global Expert Meeting:

1. Sex worker-led organisations
2. Non-governmental organisations (international, national and local)
3. Global Fund supported programmes
4. Government programmes
5. United Nations agencies

The questions and indicators in the evaluation framework also came from the Global Expert Meeting, and were tested during national pilots, supported by NSWP and regional networks, and organised by OPSI in Indonesia (February 2018), KESWA in Kenya (March 2018), Chances for Life in Suriname (April 2018) and Legalife-Ukraine in Ukraine (May 2018). Feedback from the pilots have been included in this framework.
**Guidance for implementing the evaluation framework**

Sex worker-led organisations who decide to use the community-led evaluation framework can adapt the questions to national context, and/or shorten the questionnaires if they feel some questions are not relevant or necessary in their country. However, all the questions to assess meaningful involvement of sex workers should be asked of all stakeholders.

**STEPS RECOMMENDED:**

- Discuss potential technical support available from your regional network and/or NSWP.
- Identify a minimum of 5 sex workers to implement the evaluation framework, who must be supported by the sex worker-led organisation leading the project.
- Organise a 2 – 3-day workshop to train the sex workers in using the evaluation framework. During the workshop review all the questions with the sex workers; adapt the questions to national context; and decide which questions must be asked and which indicators will be used to inform the national report.
- Conduct a national stakeholder mapping and identify key organisations and individuals from each stakeholder category within the country to be interviewed. This can be done before or during the workshop – but should always involve sex workers.
- Conduct interviews with a limited number of stakeholders and reconvene the sex worker interviewers to discuss and resolve any issues that arose during the initial stakeholder interviews.
- Conduct remaining stakeholder interviews.
- Once all interviews have been conducted, reconvene the sex worker interviewers to discuss findings and agree critical content for the national report.
- Draft a national report (template provided at the end of this document).
- Organise a sex worker validation meeting to review the draft report and review the draft report in line with comments received from the community.
- Share the draft report with the stakeholders interviewed, and consider feedback received and whether the report should be further reviewed.

**Notes:**

Interview participants should be asked to sign a consent form prior to the interview. The consent form should include that interview participants can choose not to answer any question and ask participants to give permission for quotes to be used in the Country Report; they should be informed that they can request to see the quotes before they are included in the report and can veto any quotes they do not want published.
Sex Worker-led Organisations Questionnaires and Indicators

NSWP defines sex worker-led organisations as organisations or groups that meet at least two of the three following criteria:

- Decision-making body: 50% or more of the decision-making body must be sex workers (former and current - with an aspiration to include current sex workers although not an absolute requirement).
- Spokespeople: 50% or more of the spokespeople must be sex workers.
- Staff: 33% or more of the staff are sex workers and have the same contracts and working conditions as other staff in the organisation.

Map all relevant sex worker-led organisations in the country before deciding who to interview. Not all community members must be asked all questions, the sex worker-led organisation implementing the framework should select the questions relevant to the different levels of community members: service users, peer educators, project managers.

Questions for sex worker-led organisations

Knowledge of and access to SWIT

1. Do you and other staff in your organisation know the SWIT (Implementing Comprehensive HIV/STI Programmes with Sex Workers), the international normative guidance on sex worker programming?

2. Has your organisation had access to capacity building on SWIT?
   If yes
   a. Has your organisation been able to utilise learning from SWIT capacity building?
   b. How has the learning from SWIT capacity building been utilised?
   c. What was the SWIT capacity building activity e.g. workshop, on-line learning, etc.
   d. Does your organisation know where to get more capacity building on SWIT?
   e. Has your organisation received more funding since it received SWIT capacity building?

3. Is your organisation aware of other national, regional and global stakeholders advocating for the SWIT?

4. Does your organisation have copies of the SWIT?

5. Is it available in full in the local languages?
   If yes, is the quality of the translation good and language appropriate?

6. Does your organisation have copies of the Smart Sex Worker’s Guide to SWIT? Is it also available in the languages understood by sex workers in the country, including migrants?

Your organisation and SWIT

7. Does your organisation advocate for or provide technical assistance on the SWIT externally?
   With whom?
   a. On a scale from 1 (low) to 10 (high), how would you rate your organisation’s advocacy on the SWIT externally?
   b. Has your organisation’s advocacy resulted in the adoption of SWIT by other stakeholders in your country?
   c. If yes, has it resulted in improvements in the lives of sex workers?
   d. Is your organisation aware of any donors who have changed their criteria to enable sex worker-led organisations to apply for funding since the launch of the SWIT?
   If yes, when was the change and is your organisation now able to apply for funding?
8. Has your organisation received any support from other national, regional and global stakeholders in advocating for the SWIT?
   a. On a scale from 1 to 10, how useful was the support from other national, regional and global stakeholders in advocating for the SWIT?

9. Has your organisation received any support from UNAIDS, UNFPA, UNDP and WHO in advocating for the SWIT?
   a. On a scale from 1 to 10, how useful was the support from UNAIDS, UNFPA, UNDP and WHO in advocating for the SWIT?
   b. Is your organisation aware of UNAIDS, UNFPA, UNDP and WHO advocating for the SWIT in your country?
   c. Do the different UN agencies prioritise particular chapters?
   d. Does your organisation receive regular updates from the UN on their SWIT-related activities?

10. How does your organisation advocate to the government on politically sensitive issues?

11. Do sex workers recognise themselves as experts in identifying their needs and informing rights-based programming?
   a. Has your organisation employed sex workers for their expertise and knowledge?

Programmes and SWIT

12. Does your organisation prioritise the chapters of the SWIT in line with the sex worker community’s needs and realities? How?

13. Does your organisation ensure programmes are accessible to the sex worker community in all its diversity? How?
   a. Does your organisation provide services for undocumented migrant and mobile sex workers?
      If yes, are the services provided to them the same as those provided to other sex workers?
   b. Does your organisation provide services for sex workers living with HIV who want to continue selling sex?
      If yes, what services does your organisation provide to them?

14. Does your organisation have any experience of sex work programming by other stakeholders in the country?
   a. If yes, is it aligned with the SWIT?
   b. If not aligned, what recommendations would your organisation make to ensure it becomes aligned with the SWIT?

15. Are there administrative, legislative or policy barriers to implementing sex worker-led programmes? If yes, please describe them.

16. What steps do you take to ensure that data is collected and stored safely and securely?

17. Do donors give enough time to sex worker-led organisations to consult with the community and relevant stakeholders ahead of submitting funding proposals?

Meaningful involvement of sex workers checklist

1. Sex workers choose how they are represented, and by whom  
   Yes or No?
2. Sex workers choose how they engage in the process  
   Yes or No?
3. Sex workers choose whether to participate or not  
   Yes or No?
4. Sex workers have an equal voice in how partnerships are managed  
   Yes or No?
5. A transparent process for decision-making exists and allows time for consultation (between sex worker-led organisations and/or between sex worker-led organisations and their constituencies).  
   Yes or No?
   A transparent process includes:
   • Comprehensive information about decision to be made by the community was made available in a timely manner and in the languages spoken by sex workers in the country (including migrants)
   • An electronic or written communication to document the consultation that occurred with sex worker groups across the geographic area
   • 1 month, at least, to allow for consultation at national level
6. Clear Terms of Reference exist for all individuals involved in the process to indicate that they represent their constituencies, and not their personal interests  
   Yes or No?
7. Sex workers and partners have equal voice and power  
   Yes or No?
8. Sex workers are not only beneficiaries of programmes but are involved at all levels in programmes (design, development, implementation, monitoring and evaluation, management, advisory committees and governance) and policy development and review.  
   Yes or No?
9. Translation and interpretation is always provided to sex worker-led organisations  
   Yes or No?

Meaningful involvement questions for sex worker-led organisations

1. Are sex worker-led organisations disadvantaged in the selection of organisations to receive funding, due to specific provisions such as unrealistic experience, requirements, unequal application of conflict of interest policies, etc.?  
   If yes, do the same provisions apply to non sex worker-led organisations?
2. What steps does your organisation take to ensure that sex workers are meaningfully involved and can understand the process and discussions, and input?
3. What steps does your organisation take to ensure documents and other materials are accessible to sex workers?
4. What steps does your organisation take to ensure sex workers are meaningfully involved in the following stages of sex work programmes and technical assistance provided by your organisation.
   - Planning?
   - Implementation?
   - Monitoring and evaluation?
   - Management?
   - Governance?
5. What steps does your organisation take to ensure sex workers are meaningfully involved in setting priorities when resources are limited?
6. What steps are taken to ensure the results of community consultations are used to inform policy and programme development?

7. To your knowledge, are sex workers meaningfully involved in all sex work-related policy forums?

8. What steps does your organisation take to ensure sex workers are meaningfully involved in sex work-related policy forums that your organisation is aware of?

9. Does your organisation recognise sex workers and sex worker-led organisations as experts in the field of sex work policy and programming? How?

**Meaningful involvement indicators**

- # sex worker-led organisations in country
- # sex worker-led organisations that report sex workers and themselves are considered experts by external stakeholders
- # sex worker-led organisations that report donors provide adequate notice of funding opportunities for them to consult with the sex worker community and prepare proposals
- # funding opportunities with criteria that result in the exclusion of sex worker-led organisations
- # sex worker-led organisations that report meaningful involvement in national policy development
- # sex worker-led organisations that report meaningful involvement in setting programme priorities and programme development
- # sex workers nominated by sex worker-led organisations participating in national policy and programme forums
- # sex worker-led organisations asked to nominate representatives to engage in policy and programme forums
  - @ local level
  - @ district level
  - @ national level
- # sex worker-led organisations who have transparent and accountable criteria for nomination of sex worker representatives
- # sex worker-led organisations that have transparent mechanisms in place to ensure sex worker representatives are accountable to the organisation and the community
Non-Governmental Organisations Questionnaires and Indicators

There are many different types of non-governmental organisations, including international non-governmental organisations (such as the International HIV/AIDS Alliance), bi-lateral donor programmes (such as LINKAGES and Bridging the Gaps programmes), national non-governmental organisations and local community-based organisations, which can also include sex worker-led organisations. Map all relevant non-governmental organisations before deciding who to interview.

   a. Does your organisation translate sex work related documents into languages that are understood by the sex worker community?

11. What steps does your organisation take to support sex worker-led organisations in consulting with their members where needed?
The Global Fund Questionnaires and Indicators

The Global Fund to Fight AIDS, Tuberculosis and Malaria has included the need to ensure access to comprehensive services for key populations, including sex workers, in their new 6-year strategy. The Global Fund adopted the SWIT as normative international guidance for sex work programming, aligning the sex work programming module with the SWIT. Sex work programmes funded through the Global Fund should therefore align with the SWIT and ensure meaningful involvement of sex worker-led organisations in the design, development, implementation, management, monitoring and evaluation and governance of services. Global Fund stakeholders include Principle Recipients (PRs), Sub-Recipients (SRs) and Sub-Sub-Recipients (SSRs), which can include sex worker-led organisations; as well as Country Coordinating Mechanisms (CCMs), including sex worker representatives on CCMs. Map all relevant Global Fund stakeholders in your country before deciding whom to interview.

MEANINGFUL INVOLVEMENT OF SEX WORKERS

During a Global Experts' Meeting¹, organised by NSWP in September 2017, sex workers from all five NSWP regions reviewed existing definitions and determined criteria for the meaningfully involvement of sex workers in the design, development, implementation, management, and monitoring and evaluating in programming, policy and legislation. It was relatively easy for representatives from sex worker-led organisations to reach consensus on ‘Meaningful Involvement’, as sex worker-led organisations have been discussing and advocating for meaningful involvement of sex workers for many years, since sex workers are so often excluded from these processes. This assessment tool uses the definition of meaningful involvement from both the consensus arrived at during the Global Expert Meeting and the *Sex Worker Implementation Tool (SWIT)*² to determine the meaningful involvement of sex workers.

In 2013, WHO, UNFPA, UNAIDS, NSWP, The World Bank, and UNDP published the *Sex Worker Implementation Tool (SWIT)*, the international guidance on effective HIV and STI programming for sex workers, it calls for and provides evidence for the benefits of the meaningful involvement of sex workers in developing policy and programmes.

“The meaningful participation of sex workers is essential to building trust and establishing relationships and partnerships that have integrity and are sustainable. This may be challenging for service providers [and the UN, INGOs, NGOs, Bilateral Programmes, Governments, and the Global Fund] who are more accustomed to establishing the parameters within which services are provided, and prescribing how relationships or partnerships are to be conducted. As sex workers and sex worker organizations become more empowered, there will be greater expectations of power-sharing and power-shifting.”

SWIT, Page 7

This document is a practical tool for organisations to self-assess whether they meaningfully involve sex workers, and for sex worker-led organisations to assess whether they are meaningfully involved.

Guidelines for Drafting Country Reports

REPORT TITLE: Community-led evaluation of the roll out of SWIT and meaningful involvement of sex workers in [NAME OF COUNTRY]

INTRODUCTION: Sex workers are a key population in the global response to HIV, given that they are 13.5 times more likely to be living with HIV than other adults. The disproportionate burden of HIV carried by sex workers means it is imperative that countries invest in sex worker programming, but it is also important that they invest in the right sort of programming. Implementing Comprehensive HIV/STI Programmes with Sex Workers: Practical Approaches from Collaborative Interventions also known as the Sex Worker Implementation Tool (SWIT) provides practical guidelines on how to implement rights-based HIV and STI programming with and for sex workers. It was published in October 2013 by the World Health Organization (WHO), the United Nations Population Fund (UNFPA), the Joint United Nations Programme on HIV/AIDS (UNAIDS), the Global Network of Sex Work Projects (NSWP), The World Bank and the United Nations Development Programme (UNDP).

NSWP in collaboration with representatives from sex worker-led regional networks in Africa, Asia Pacific, Caribbean, Eastern Europe and Central Asia, and Latin America developed a community-led evaluation framework for the national rollout of the SWIT and assessing meaningful involvement of sex workers in policy development and programming. In line with the principles of the SWIT, sex worker-led organisations are best placed to evaluate the rollout of this international normative guidance at national, regional and global level.

COUNTRY BACKGROUND: To be drafted by sex worker-led organisation leading the country evaluation. The sex worker-led organisation should decide what information they have access to about the situation in their country and what information they want to include.

STAKEHOLDER ANALYSIS: To be drafted by the sex worker-led organisation leading the country evaluation after analysis of all the stakeholder interviews.

The stakeholder analysis should include a section on each of the stakeholders below:

1. Sex worker-led organisations
2. Non-governmental organisations
3. The Global Fund supported programmes
4. Government supported programmes
5. United Nations agencies

Each section should include a summary of findings from all the organisations interviewed and quotes from individuals/organisations, including the findings on the meaningful involvement of sex workers. Permission must be obtained to publish these quotes.

The stakeholder analysis should end with a conclusion on how well the SWIT is being rolled out in the country, the meaningful involvement of sex workers and the contribution of each of the stakeholders.

MEANINGFUL INVOLVEMENT ANALYSIS: To be drafted by the sex worker-led organisation leading the country evaluation after analysis of the responses from all stakeholder interviews and reflection on the lived experiences of sex workers in the country and realities faced by sex worker-led organisations.

This section should include a summary of findings from each stakeholder and quotes from individuals/organisations. Permission must be obtained to publish these quotes.

The meaningful involvement analysis should end with a conclusion on how well the principles of meaningful involvement are being respected in the country and the contribution of each of the stakeholders.

RECOMMENDATIONS: To be drafted by the sex worker-led organisation leading the country evaluation, after both the stakeholder and meaningful involvement analysis have been completed. Recommendations should focus on improvements required in stakeholder’s contribution to rolling out the SWIT and meaningfully involve sex worker-led organisations and sex workers in the response to HIV.
